### Session 1: What is Climate Change?

**July 23, 2015**

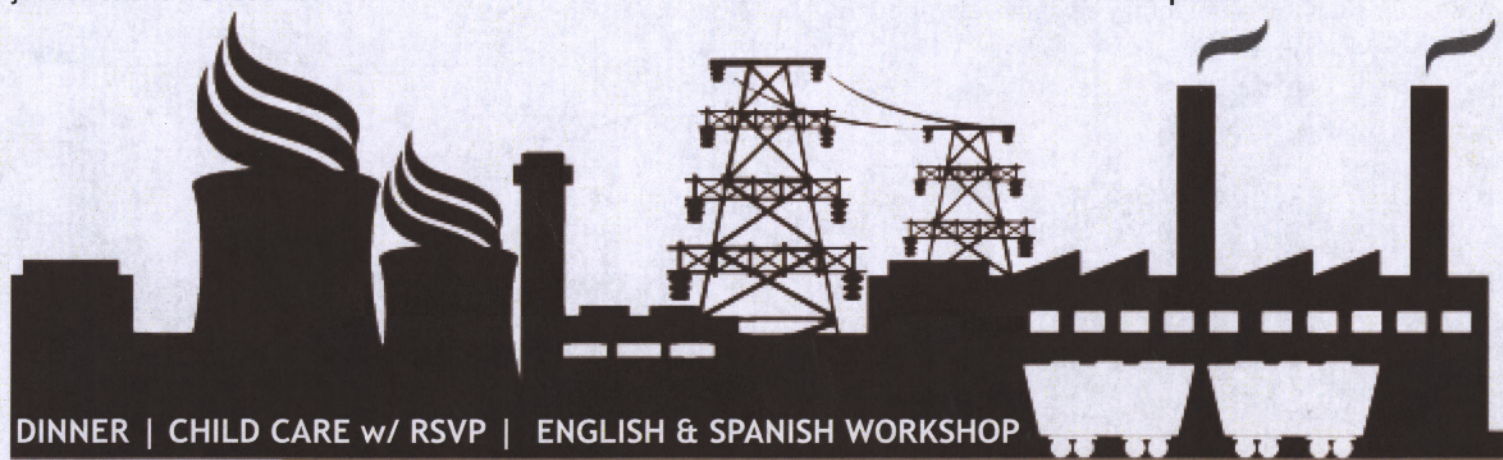

The first session will show the environmental, health, and economic impacts of climate change broadly and here in Newark. You will also learn about the movement to target the pollution impacts that cause extreme weather conditions in our neighborhood and around the world.

### Session 2: How do we bring Climate Justice?

**July 30, 2015**

The second session will review the local impacts of climate change and how we at ICC understand climate justice. This session will invite participants to work in groups to understand how working together, we can bring climate justice to the Ironbound!

**Ironbound Community Corporation** invites you to a 2-day **workshop** about **climate justice**. The workshop will focus on the local impacts of climate change and invite everyone to take action so that our neighborhood stops being a dumping ground for industrial pollution.
